SHEPHERD TRANSMISSION
R35 GT-R DRAG CAR
1/4 MILE: 6.84"

FORGED PERFORMANCE
R35 GT-R DRAG CAR
1/4 MILE: 7.21"

CLUTCHES & CLUTCH KITS

- Iterated design via testing and computer simulation to increase thickness and remove stress concentrators
- Precision engineered and manufactured on CNC machines to achieve exacting tolerances
- Oil flow designed to maximize heat dissipation
- Billet baskets from high tensile steel
- Billet machined outer basket with high-strength drive gear
- Heat treated clutch steels and billet clamp plates
- Patented Exedy® friction material with a high coefficient of friction
- Aircraft-grade aluminum forged and anodized pistons

DMS-7932

Standard Gear Ratios

DMS-7962

Overdrive 6th Gear

- Superior material upgrade to increase strength and durability
- Recommended up to ~1,500hp

DMS-7905

Standard Gear Ratios

DMS-7906

Overdrive 6th Gear

- All new 2nd gear design to reinforce and hold more power (improved helical angle)
- Precision cut, ground, and super finished for improved wear resistance
- Recommended above ~1,500hp

DMS-7963

Standard Gear Ratios

DMS-7964

Overdrive 6th Gear

- For Stage 6+ transmission builds - the ultimate in performance
- F1 grade alloy on 2nd, 4th & Cluster
- **Coming Soon, enquire now to reserve yours!**

KITS AVAILABLE:

Standalone parts available:

- LPS Pro DMS-7203
- Clutch pressure sensor shield DMS-6220
- Line pressure sensor shield DMS-6221

DMS-7222

Line pressure kit:

- 1x LPS Pro sensor DMS-7203
- 1x line pressure sensor shield DMS-6221
- 1x high temperature cable tie

DMS-7223

Clutch pressure kit:

- 2x LPS Pro sensor, DMS-7203
- 1x clutch pressure sensor shield DMS-6220
- 1x high temperature cable tie

DMS-7224

Line & clutch pressure kit:

- 3x LPS Pro sensor, DMS-7203
- 1x clutch pressure sensor shield DMS-6220
- 1x line pressure sensor shield DMS-6221
- 2x high temperature cable tie
